

Rhodia uses **Michael Management** for holistic and integrated SAP training solution

Company: Rhodia
Industry: Chemicals

SITUATION

French specialty chemicals company Rhodia was working with 3rd party consultants to roll out a new SAP system and needed its users to become proficient in basic SAP skills in a short period of time.

The company was looking for customized online SAP courses that could be integrated into their corporate learning portal so that their users could access the training from around the world.

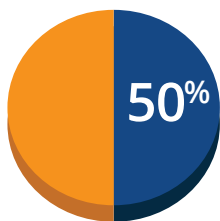

SOLUTION

Rhodia partnered with Michael Management to deploy a corporate-branded training portal to its 1,800 SAP users (dispersed around the globe).

Michael Management created customized basic SAP skills and navigation training courses – all in record time and at a fraction of traditional classroom training would have cost them, resulting in complete elimination of training-related travel expenses and absences.

RESULTS

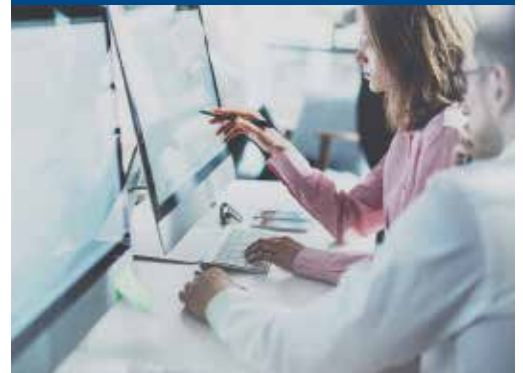

- **1,800** SAP users trained in 3 months
- **100%** Elimination of training-related travel costs and absences

50% Cost Savings over traditional classroom training

QUOTE

“ I am happy that we found **MMC**, they provided an online **SAP** training program that was of great help when we rolled out **SAP** to our users. ”
